

Instructors:

- Katrina "Kit" Vogel, MS, DPT
- Paul Swift, Owner - BikeFit Systems,
and an 8-time National Elite Track Cycling Champion

Who should attend?

- Clinicians & Healthcare professionals that want to increase their knowledge & skills regarding bike fitting & cycling biomechanics (normal & pathological)
- Clinicians that want to jump-start their bike fitting program

What will this 2-day seminar teach me?

- Extensive HANDS-ON training
- Special emphasis on the important Foot-Pedal Interface
- Assessment of normal and pathological cycling mechanics, including functional differential diagnosis
- Problem solving & training for appropriate adjustments on the bike for cyclists
- How to address special considerations (billing, time, marketing) for bike fitting
- CEUs available

Continued support is provided after the course is completed. E-mailed educational tips and helpful hints, along with other premium benefits will be provided upon completion of the course. Phone consultations with instructors will also be available.
