

# Goniometer (G-Meter)

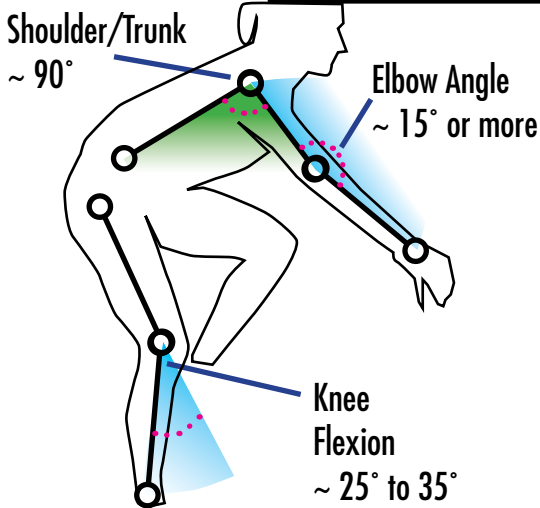

This is another "standard" in Bike Fit -- the cycling-specific, color coded goniometer.

A Paul Swift design. Use Bike Fit Systems Goniometer to easily and quickly determine joint and body position angles. Constructed of clear plastic, with a 16" folded length, that's longer than most medical goniometers. This is a standard component of the Bicycle Fitting System.

Part# 50003

MSRP \$39.95

16"

G-Meter used by Bike Fitter - Ron Peterson
