

Goniometer (G-Meter) Multi-Purpose Tool

Part# 50003

The "standard" in Bike Fit -- the cycling-specific, color coded goniometer.

Use BikeFit's **NEW LONGER** Goniometer to easily and quickly determine joint and body position angles. Constructed of clear plastic, with a 17.75" folded length, that's longer than most medical goniometers. **New updated design has stem & handlebar measurement applications.** This is a standard component of the Bicycle Fitting System.
