

Bike Fitting Tools

BikeFit Session Highlights DVD

NEW Bonus "Connection Points" Lecture
added for an additional 45 minutes of information.

Part# 50210

\$24.95

A supplement to The Bicycle Fitting System's MANUAL

The Bike Fit Session Highlights DVD, (updated September 2009), is an additional feature to the EDU COMBO (DVD with Manual). This DVD is a great tool that works in conjunction with the Manual for an educational combo that is a complete, easy to understand, step-by-step process.

NEW Bonus Lecture from FrostBike with 45 minutes of additional information.

RUN TIME: 60 minutes

LANGUAGE: English **FORMAT:** NTSC

The original source for the most complete BikeFit Education, Paul Swift brings his years of racing experience along with his cycling industry knowledge as a product designer and developer to this BikeFit Session Highlights DVD. This is your easiest opportunity to gain insight directly from the person that actually designed and developed the BikeFit tools that are in used by experts around the world.

Learn the most overlooked aspects - the connection points of Bike Fitting, where those little changes can be made that can often make the most dramatic results for your customers. Deals with the foundational foot-pedal connection point and much more.
