

## Saddle Changer

Part# 7050203

The Saddle Changer enables a bike fitter or customer to change and adjust the tilt on saddles/seats in a few seconds enabling the rider to find the perfect fitting saddle. The patented, Saddle Changer can be mounted to a variety of seat posts because it has variable-width rails while also accommodating a variety of indoor bikes (such as the CycleOps 400 Pro).

**\$349.99**

includes padded carry case

	SAE	Metric
Height	5.25"	13.34 cm
Width	3"	7.62 cm
Length	6.75"	17.15 cm
Weight	25.7 oz	729 gr

Secure seat clamp will affix to standard two rail saddle designs.

Quick action lever to release saddle that fits most sizing bikes

### COMPATIBILITY:

- Works with standard two rail seat posts.
- Saddle Changer rails have width adjustment for Sizing Bikes

### SPECIFICATIONS:

- Alloy and stainless steel parts.
- Friction points require only synthetic lube, no grease. This can damage Saddle Changer.
